

This is an annual VFSA Water Treatment Scholarship, which is to assist a college bound high school senior who excels in his or her studies and plans to use his or her talents and expertise in the service of environmental protection.

The criterion for the scholarship, evaluated by the respective school's administration, was as follows:

1. Demonstration of a strong personal commitment to the environment.
2. Acceptance by an accredited college or university for the current year fall semester.
3. Plans to major or minor in one of the natural sciences or other appropriate subject.
